Recent developments

- The Company announced that the total value of purchase orders for its 2013 Spring and Summer Collection showcased during its biannual sales fair held in September 2012 in Xiamen, China increased by 2% as compared to the total value of purchase orders placed in September 2011. In an effort to ensure the long-term, sustainable development of its authorized retail outlets, the Company reduced prices on its 2013 Spring and Summer Collection by an average of 2.2% to improve the price competiveness of its products beginning in 2013. As a result, the Company's gross margin for its 2013 Spring and Summer Collection is expected to decline by approximately 2.2%.
- The Company announced the opening of its sixth and seventh flagship stores in Urumqi City, Xinjiang Province and Shenyang City, Liaoning Province. Both stores were opened and are operated by Xiniya's distributors.

Guidance

- Revenue in RMB for the fourth quarter of 2012 is expected to increase by 4%-7%.
- Earnings per ADS in the fourth quarter of 2012 are expected to be in the range of \$0.17 \$0.19.
- The Company reiterates guidance for net additions of retail outlets for 2012 to be more than 100.

"On the back of continued store expansion and the rapid conversion of our authorized retailer- managed retail outlets, we were able to beat guidance with another strong quarter of top line revenue growth," said Mr. Qiming Xu, Chairman and Chief Executive Officer. "Despite the economic softening in China, we were able to adapt to the current situation and push through numerous initiatives we have put in place to ensure the long-term, sustainable development of our business. Following our bi-annual sales fair in September 2012, where the total value of purchase orders grew slightly despite distributors' and authorized retailers' cautionary approach, we reduced the prices on our collections to improve the price competitiveness of our products, improve product turnover and reduce inventories during the slowdown. We conducted training courses for distributors and authorized retailers to strengthen retail management and enhance profitability as the refurbishment of our existing retail outlets continued as we adjust our image to meet changing consumers taste. We are pleased with the flexibility we have shown during the quarter as we push through these difficult times. I remain confident in our ability to seek new growth opportunities as we enhance our brand value and provide our customers with the high-quality products they have come to expect."

Third Quarter 2012 Results

Revenue for the third quarter of 2012 was RMB417.9 million, compared with revenue of RMB361.1 million for the third quarter of 2011, which represents a 15.7% increase. The Company delivered approximately 2.0 million units during the third quarter of 2012, which is similar to the number of units delivered during the same period last year. The total retail outlet count as of September 30, 2012 was 1,679. The table below sets forth the number of retail outlets by outlet type:

Outlet Type:	As of December 31, 2011	As of September 30, 2012
Company-operated flagship stores	2	2
Managed by distributors	96	110
Distributor-operated flagship stores	3	5
Managed by department store chains	317	-
Managed by authorized retailers	1,189	1,562
Total outlet count	1,607	1,679

Although total outlet count increased by a net addition of 72 units since December 31, 2011, the number of outlets managed by department store chains decreased by 317 outlets. Of these 317 department store chain managed outlets, 301 outlets were converted to authorized retailer- managed retail outlets. This conversion was mainly due to the change in the business model used by the regional department store chain operators. In an effort to streamline their business, the regional department store chain operators shifted their business model focus from retailing directly to customers to leasing department store concession areas to retailers.

Gross profit increased to RMB144.3 million in the third quarter of 2012 from RMB124.4 million in the third quarter of 2011. Gross margin was 34.5% in the third quarter of 2012 as compared with 34.4% in the third quarter of 2011.

Interest and other income was RMB5.5 million in the third quarter of 2012 as compared to RMB8.5 million in the third quarter of 2011. The decrease was mainly due to the reduction in exchange gains of RMB3.0 million in the third quarter of 2012.

Selling and distribution expenses in the third quarter of 2012 increased to RMB71.1 million from RMB32.3 million in the third quarter of 2011 mainly due to increases in rack expenses for authorized retail outlets of RMB24.6 million, training expenses of RMB4.4 million, advertising and promotional expenses of RMB4.2 million, brand consultancy fees of RMB3.5 million, sales fair expenses of RMB0.9 million, flagship store expenses of RMB0.6 million, and freight and packing expenses of RMB0.6 million.

- Since July 2011, as part of the Company's overall strategy to unify the image of its authorized retail outlets, the Company has been paying for shop rack, signage and various outlet-related accessories for authorized retail outlets opened or refurbished on or after July 2011. During the third quarter of 2012, the Company paid for shop rack, signage and various outlet-related accessories for 79 new retail outlets and refurbished 90 retail outlets, including expanding floor space for two existing retail outlets. The refurbishment of existing retail outlets is expected to upgrade the older retail store image, help to attract consumers into the retail stores, help to improve presentation of our apparel products to consumers and, eventually, enhance retail outlet sales. These expenses were approximately RMB39.6 million, or 9.5% of revenue, in the third quarter of 2012, compared to RMB15.0 million, or 4.2% of revenue during the third quarter of 2011.
- The increase in training expenses related to consultancy fees paid to external professional trainers for training provided to our distributors and authorized retailers across China. These training courses are expected to strengthen retail outlet management in the areas of retail inventory management, retail outlet managers and staff, and retail sales management. Also, these training courses are expected to enhance retail sales and to help to reduce inventory levels at the retail channels.
- Advertising and promotional expenses were RMB16.7 million in the third quarter of 2012, arising mainly from billboard advertisements placed by the Company across 20 provinces in China and an advertising campaign on Channel 12 of China Central Television.
- Sales fair expenses were RMB2.5 million in the third quarter of 2012, arising mainly from the sales fair in Xiamen City, Fujian Province in September 2012.
- Flagship store expenses were RMB1.1 million in the third quarter of 2012, arising mainly from the two flagship stores operated by the Company and five other flagship stores opened and operated by distributors.

Administrative expenses decreased to RMB3.9 million in the third quarter of 2012 from RMB5.8 million in the third quarter of 2011. This was primarily due to the beneficial exchange rates between RMB and United States dollars which resulted in translation exchange gains for the third quarter of 2012, compared to translation exchange losses for the second quarter of 2012.

Profit before taxation was RMB74.8 million in the third quarter of 2012, compared with RMB94.8 million in the third quarter of 2011.

Income tax expense in the third quarter of 2012 was RMB18.4 million, compared with RMB23.0 million in the third quarter of 2011.

Profit after taxation for the third quarter of 2012 was RMB56.4 million, compared with RMB71.8 million in the third quarter of 2011. Earnings per ADS were \$0.16 in the third quarter of 2012, compared to \$0.19 per ADS in the third quarter of 2011.

Financial Position

As of September 30, 2012, the Company had cash and cash equivalents of RMB0.8 billion, and time deposits held at banks with maturity over three months of RMB220.0 million.

As of September 30, 2012, the Company had trade receivables of RMB373.5 million, arising entirely from sales during the third quarter of 2012. Trade receivables outstanding as of June 30, 2012 have been fully collected as of September 30, 2012.

Inventory as of September 30, 2012 was mainly related to finished goods produced from orders placed during the April 2012 sales fair, which will be delivered in the fourth quarter of 2012.

Other receivables and prepayments on September 30, 2012 increased compared to balances on December 31, 2011, primarily due to prepayments for advertising and promotional expenses associated with the billboard advertisements in 20 provinces across China and for commercial air time on China Central Television's Channel 12.

Other payables and accruals at September 30, 2012 increased compared to balances at December 31, 2011, primarily due to deposits collected from distributors for April and September 2012 sales fair orders.
